www.crevin.com

Crevin is dedicated to creating fabrics that transform upholstered furniture into lasting objects of value, all while prioritising environmental sustainability. The brand believes that good design should consistently reflect purpose and exude a timeless sense of style.

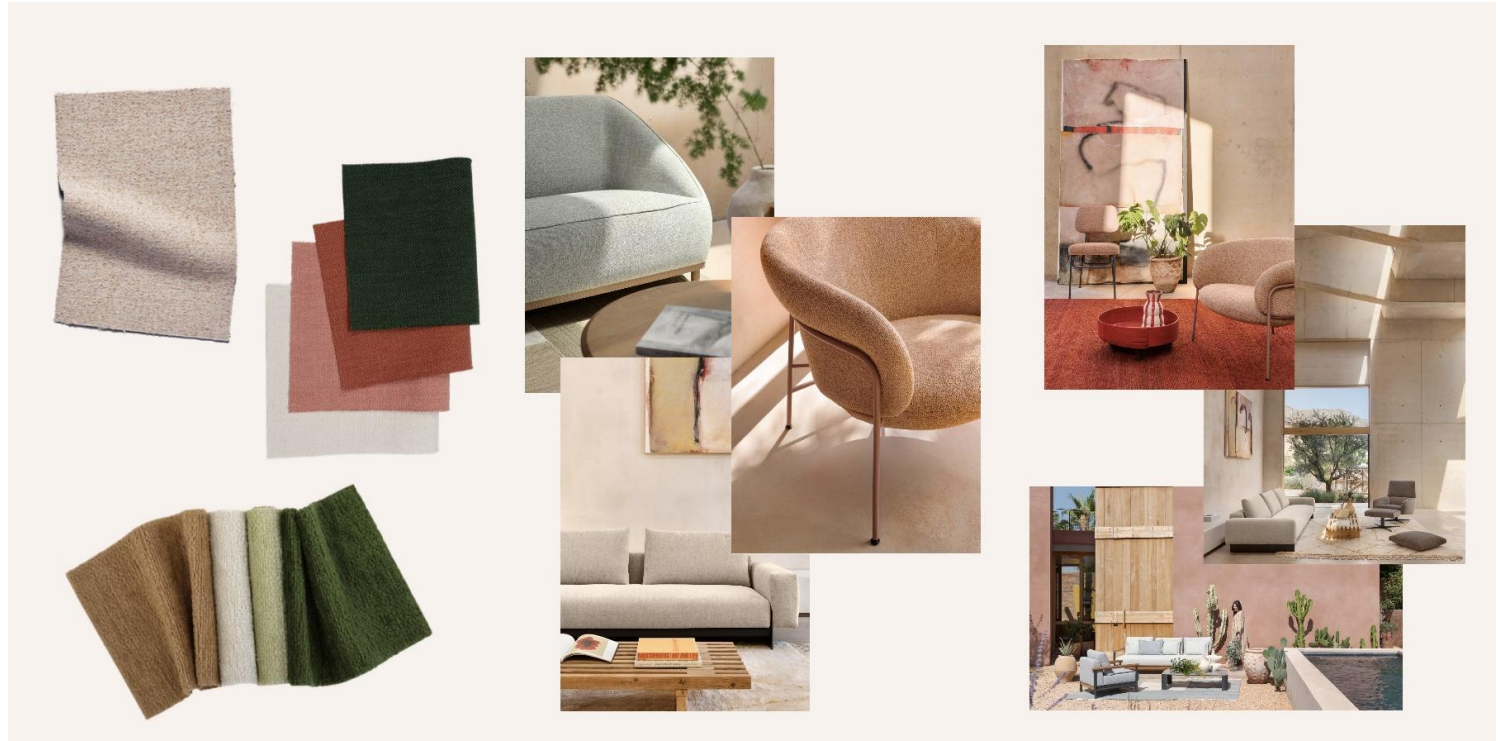

Crevin home fabrics embody a modern lifestyle with a casually elegant aesthetic. Thanks to their double-weave construction and high-quality materials, Crevin fabrics are versatile and durable, and feature a strong sense of identity by joining performance and creative expression.

Owing to a background in residential design, **Crevin contract fabrics** fuse the warmth of the home with the performance required for contract spaces. Crevin contract fabrics are double woven with FR yarn and comply with the BS 5852-0/1 and EN 1021-1/2 (cigarette and match) test requirements.

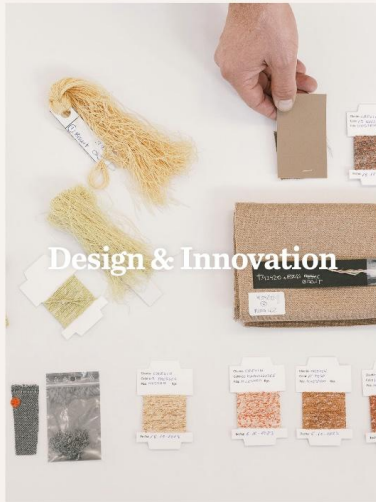

Developed for joint indoor-outdoor use, **Crevin's Outdoor collection** combines a soft hand and natural appearance with stain-repellence and machine-washability. Outdoor fabrics are finished with a waterproof lamination and can be safely cleaned with a solution of 20% household bleach and 80% water.

We are a 50 year old brand of premium upholstery fabrics driven by sustainability and design. We exclusively develop, weave, dye, and finish in our own mill in Terrassa, a city with a long textile tradition close to Barcelona. Made from custom-spun yarns and recycled materials, our fabrics are defined by a distinctive aesthetic and a fresh take on contemporary design. Our core belief starts with the idea that **Decoration Is Home**, regardless we consider residential, contract or outdoor spaces. Always deepening the essence of what is a good fabric, our creations are conceived from local heritage and sustainable innovation, shaping the interiors of the future.

Our pillars

**Design for a better
world**

**Turning furniture into
lasting objects**

Road to zero impact
